

Testing Protocol for PLTW End-of Course Assessments Through the State of Utah

Digital Electronics

1. Read all of the “End-of-Course Assessment Administration Regulations -- General Rules”
2. Read the Digital Electronics, End-of-course Assessment Rules and Grading Criteria.

Ordering Information –

You will need to order one classroom set the Part A of the test. You will have to order a Part B for every student taking the test.

(Example: If I have two DE section with 29 students in one and 26 students in the other, you should order a classroom set of 29 part A tests, and $26 + 29 = 55$ part B tests.)

Adjustments made for Utah.

1. Give Part A prior to Part B
2. Students are not to write on Part A of the test.
 - a. Student will use the Skill Certificate Scan Sheet
 - b. The teacher will not check the scan sheet
 - c. The scan sheet will be sent back to the state office and checked and the results will be returned to the school.
3. Students will write on Part B
 - a. The teacher will check Part B
 - b. The teacher will indicate on question 81 if the student passed Part B.
4. The following test materials will be returned to the Skill Testing Center.
 - a. Unchecked scan sheets
 - b. Part A
 - c. Part B
5. The state will keep Part A and Part B on file for one year to meet the PLTW’s requirements.
6. The state will check the scan sheets and return grades and certificates to your school.
